	nmended use of the c	hen :		ns on use		
Restrie	ctions on use	:	: See product label for restrictions.			

### SECTION 2. HAZARDS IDENTIFICATION

# GHS classification in accordance with the OSHA Hazard Communication Standard (29 CFR 1910.1200)

Not a hazardous substance or mixture.

#### **GHS** label elements

No hazard pictogram, no signal word, no hazard statement(s), no precautionary statement(s) required

#### Other hazards

Cutaneous sensations may occur, such as burning or stinging on the face and mucosae. However, these sensations cause no lesions and are of a transitory nature (max. 24 hours).

### SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture	:	Mixture
---------------------	---	---------

Chemical nature : Granule (GR)

## Components

Chemical name	CAS-No.	Concentration (% w/w)		
Calcium sulfate dihydrate	10101-41-4	>= 90 - <= 100		
Deltamethrin	52918-63-5	>= 0.1 - < 1		
A stud concentration is withheld on a trade accent				

Actual concentration is withheld as a trade secret

Versio 1.0	n Revision Date: 07/31/2023		DS Number: 252822-00001	Date of last issue: - Date of first issue: 07/31/2023		
SECT	ION 4. FIRST AID MEASUR	RES				
lf	inhaled	:	lf inhaled, remove Get medical atten	to fresh air. tion if symptoms occur.		
In case of skin contact		:	Wash with water and soap as a precaution. Get medical attention if symptoms occur.			
Ir	In case of eye contact		Flush eyes with water as a precaution. Get medical attention if irritation develops and persists.			
If swallowed		:	If swallowed, DO NOT induce vomiting. Get medical attention if symptoms occur. Rinse mouth thoroughly with water.			
а	Most important symptoms and effects, both acute and delayed		No symptoms known or expected. This product contains a pyrethroid. Pyrethroid poisoning should not be confused with carbamat or organophosphate poisoning.			
Р	rotection of first-aiders	:	: No special precautions are necessary for first aid respon			
Notes to physician :				ortive and symptomatic treatment as indica- s condition is recommended.		

## SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media	:	Water spray Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical
Unsuitable extinguishing media	:	High volume water jet
Specific hazards during fire fighting	:	Exposure to combustion products may be a hazard to health.
Hazardous combustion prod- ucts	:	Metal oxides Sulfur oxides Carbon oxides
Specific extinguishing meth- ods	:	Use extinguishing measures that are appropriate to local cir- cumstances and the surrounding environment. Use water spray to cool unopened containers. Remove undamaged containers from fire area if it is safe to do so. Evacuate area.
Special protective equipment for fire-fighters	:	Wear self-contained breathing apparatus for firefighting if necessary. Use personal protective equipment.

## SECTION 6. ACCIDENTAL RELEASE MEASURES

## SAFETY DATA SHEET

## Deltagard G

Vers 1.0	sion	Revision Date: 07/31/2023		S Number: 252822-00001	Date of last issue: - Date of first issue: 07/31/2023
	tive equ	al precautions, protec- ipment and emer- procedures	:		ng advice (see section 7) and personal pro- recommendations (see section 8).
	Environ	mental precautions	:	Retain and dispos	akage or spillage if safe to do so. e of contaminated wash water. hould be advised if significant spillages
		s and materials for ment and cleaning up	:	tainer for disposal. Local or national r sal of this material ployed in the clear which regulations Sections 13 and 1	egulations may apply to releases and dispo- , as well as those materials and items em- nup of releases. You will need to determine

## SECTION 7. HANDLING AND STORAGE

Technical measures	:	See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.	
Local/Total ventilation	:	Use only with adequate ventilation.	
Advice on safe handling	:	Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure as- sessment Take care to prevent spills, waste and minimize release to the environment.	
Conditions for safe storage	:	Keep in properly labeled containers. Store in accordance with the particular national regulations.	
Materials to avoid	:	Do not store with the following product types: Strong oxidizing agents	

### SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

## Ingredients with workplace control parameters

### Special precautions for user

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

### SECTION 15. REGULATORY INFORMATION

#### **CERCLA Reportable Quantity**

This material does not contain any components with a CERCLA RQ.

#### SARA 304 Extremely Hazardous Substances Reportable Quantity

This material does not contain any components with a section 304 EHS RQ.

#### SARA 302 Extremely Hazardous Substances Threshold Planning Quantity

This material does not contain any components with a section 302 EHS TPQ.

SARA 311/312 Hazards	:	No SARA Hazards
SARA 313	:	This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and shall not be considered a warranty or quality specification of any type. The information provided relates only to the specific material identified at the top of this SDS and may not be valid when the SDS material is used in combination with any other materials or in any process, unless specified in the text. Material users should review the information and recommendations in the specific context of their intended manner of handling, use, processing and storage, including an assessment of the appropriateness of the SDS material in the user's end product, if applicable.
